Wishlist Extension

Installation Manual

How to install and enable the extension.

1. Download the extension.

The zip file contains the module files.

Unzip the file and you would see directories like Helper,etc and Plugin it has the files as seen in the image

```
Archive:  decryptweb_wishlist-2.0.0.zip
  inflating: composer.json
  inflating: etc/acl.xml
  inflating: etc/adminhtml/system.xml
  inflating: etc/config.xml
  inflating: etc/frontend/di.xml
  inflating: etc/frontend/routes.xml
  inflating: etc/module.xml
  inflating: Helper/Data.php
  inflating: Plugin/DisableAutoDelete.php
  inflating: Plugin/RedirectWishlistUrl.php
  inflating: Plugin/RemoveBlock.php
  inflating: registration.php
```

2. Install the extension

a) Using Composer

Install the extension using composer via command if purchased from Magento Marketplace

```
composer require decryptweb/wishlist:2.0.0
```

b) Manual Installation

Browse to the Magento root directory where Magento 2.4.x is installed.

Browse to the path **/app/code** inside Magento root directory, create a directory **Dw** and sub-directory **Wishlist** inside.

Copy the content of the unzip extension into **app/code/Dw/Wishlist**.

The directory hierarchy inside **app/code/Dw/ Wishlist** should look like as shown in the image below :

```
▼  📁 Dw
   ▼  📁 Wishlist
      ▼  📁 etc
         ▼  📁 adminhtml
               🔲 system.xml
         ▼  📁 frontend
               🔲 di.xml
               🔲 routes.xml
            🔲 acl.xml
            🔲 config.xml
            🔲 module.xml
      ▼  📁 Helper
            📄 Data.php
      ▼  📁 Plugin
            📄 DisableAutoDelete.php
            📄 RedirectWishlistUrl.php
            📄 RemoveBlock.php
         composer.json
      📄 registration.php
```
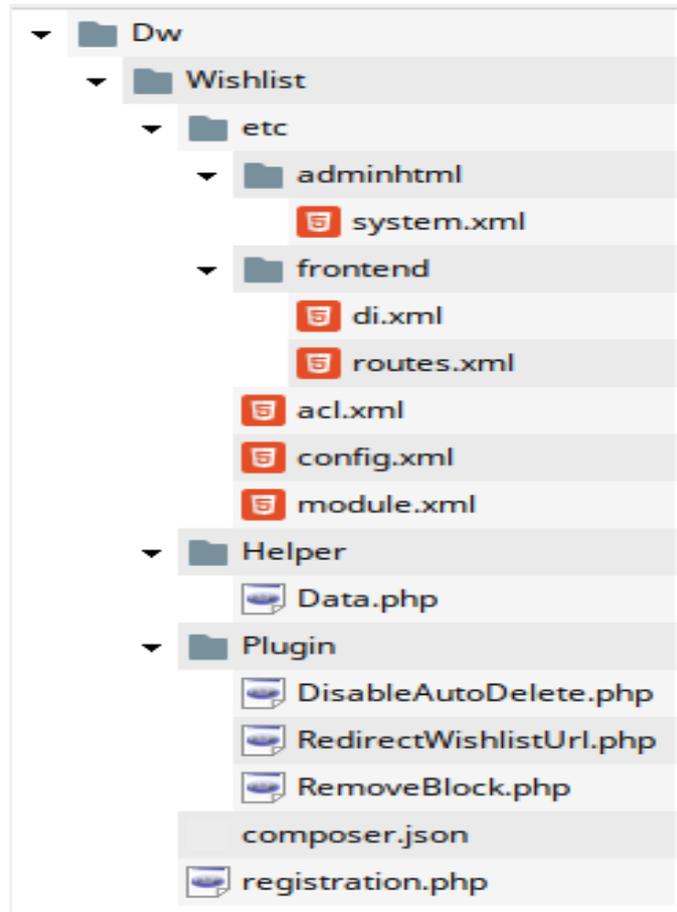

3. Enable the extension

Browse to the Magento root directory in the terminal.

Run the Magento 2.4.x install command from the Magento root directory :

php bin/magento setup:upgrade

Above command will enable the module, you can check the status of the module by executing the below mentioned command

php bin/magento module:status Dw_Wishlist

This would show a message 'Module is enabled'

In case its not enabled, execute

php bin/magento module:enable Dw_Wishlist

4. Configuration of the component

The module configuration can be found at

Admin > Stores > Configuration (Settings) > DecryptWeb Extensions > DW Wishlist
